Purpose

This document is intended to provide a summary of program changes, fixes and new features that are a part of this release.

The document will be organized by each toolbar option from within Red River Software. Changes will be noted with one of the following identifiers:

CHG - Change or enhancement to existing screens or functionality

FIX - Fix for an issue that was either reported by users or found internally

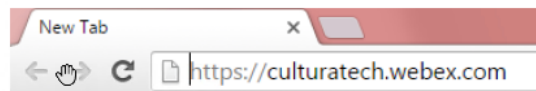

NEW - New features or screens

Training Info

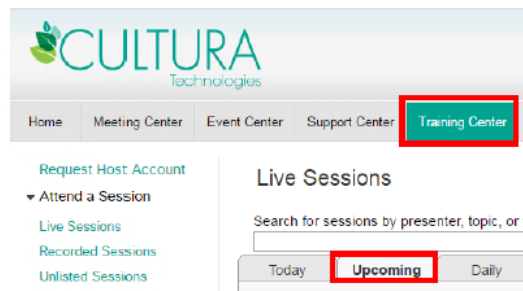

Did you know that Red River Software offers a series of online training classes for the our C-store software, CSMinder? The class series consists of 12-13 one hour sessions. Details about each class, and registration information can be found here:

<https://culturatech.webex.com>

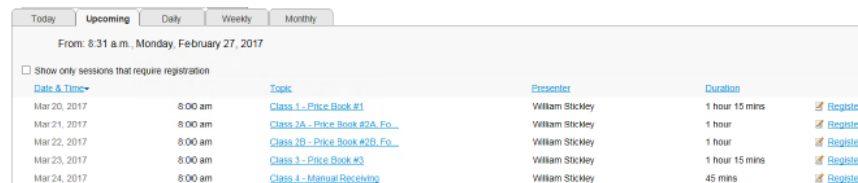

1. Go to this website to register:
<https://culturatech.webex.com>

2. Click on the **Training Center** tab, then on the **Upcoming** tab below that:

3. Find the class you want to attend and click the **Register** button on the right.
